MOSSBERG

FIREARMS THAT OFFER UNMATCHED INNOVATION AND QUALITY BUILT TO LAST A LIFETIME

Mossberg® has been a leader in firearms innovation for more than a century, living up to its label: 'American built, American strong.' Viking is pleased to bring Mossberg® products from the USA to the UK as part of our stable of top-tier shooting brands.

Based in Connecticut since 1919, Mossberg® has grown to become the largest pump-action shotgun manufacturer in the world and the oldest family-owned and operated firearms manufacturer in America. It still holds true to the values that inspired its early days: innovation and affordability.

Oscar Frederick Mossberg and his two sons, Harold and Iver, pictured in 1919.

Trusted Pistols, Rifles, and Shotguns

Mossberg® was founded with the goal of offering firearms for 'the working man,' durable and reliable without compromising quality for affordability. Oscar Frederick (O.F.) Mossberg began working as an engineer for firearms manufacturers in the United States

after emigrating from Sweden in 1886, and decided to launch his own company a full 33 years later after mastering his craft.

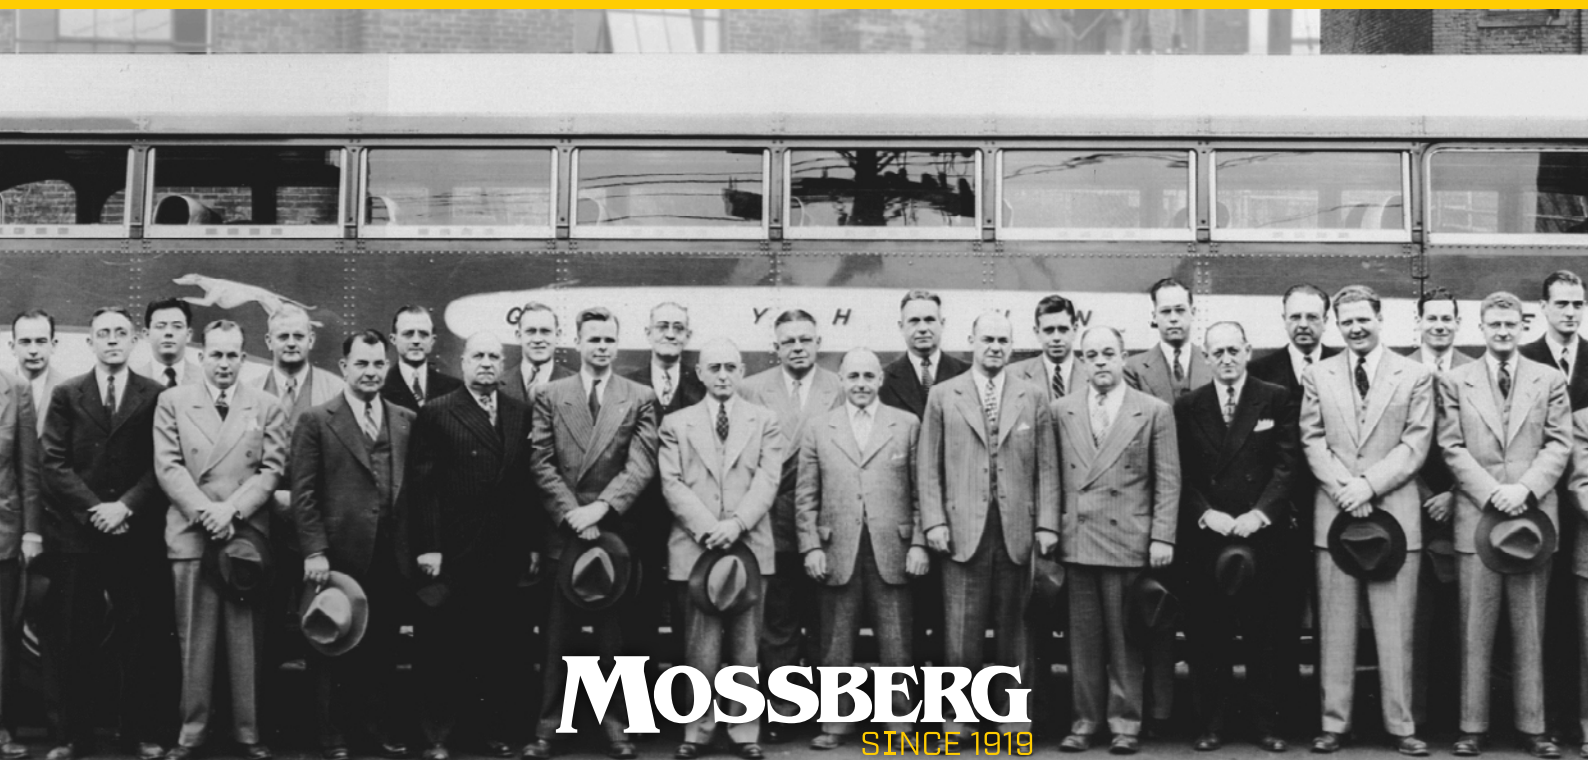

The first firearm he sold was called the 'Brownie,' a four-shot .22 pocket pistol that made use of Mossberg's rotating fire pin design. It was a

commercial success. Mossberg's sons (also key to the brand's history as gunsmiths in their own right) attributed the Brownie's popularity to its reputation for being exceptional value for money-inexpensive and reliable.

Sales from the Brownie made it possible for Mossberg® to design and sell a wide range of firearms as the years went on, each of them as affordable and functional as the last.

A century later, Mossberg's mandate is still "offering high-quality guns at affordable prices" - just with many more guns on offer. Now it's developed dozens of premium quality shotguns, rifles and more.

Read on to find your perfect fit from the Mossberg® Selection at Viking Arms.

SHOTGUNS

940 JM PRO

Champion Made, Competition Ready

How do we know the 940 JM Pro is built to win? World Champion shooter Jerry Miculek collaborated with Mossberg® to design it. The result is a competition-ready auto-loader with fast cycling potential and features made for the best of the best.

- Anodised Receiver for Superior Durability
- Built for Quad-Loading with a Enlarged & Bevelled Loading Port
- 940 Gas System Allows Faster & More Reliable Cycling
- Adjustable Length of Pull Competition-Ready Stock

A unique durable gas system inside the 940 JM Pro allows for up to 1500 rounds between cleanings. Competition level loading ports, elevators, and followers work smoothly alongside nickel boron-coated internal parts. You'll find Mossberg®'s signature texturing on the exterior, plus an adjustable stock and streamlined forend for fully optimised speed and ease of use, a trusted combo for competitive success.

940 PRO FIELD

The New 940 Pro Autoloader

This auto-loading shotgun is perfect from the inside out. The interior's durable gas system (allowing for up to 1500 rounds between cleanings) and corrosion-resistant nickel boron-coated piston, magazine tube, and hammer/sear operate seamlessly with its smoother anodised follower and elongated elevator. The outside features a user-adjustable stock that allows for a full 1.25" of LOP flexibility and a front fibre optic sight to keep your aim true.

- 940 Gas System Allows Faster and More Reliable Cycling
- Built for Quad-Loading with an Enlarged and Bevelled Loading Port
- Threaded 940 Pro Field Barrels for Use with Mossberg's Accu-Choke System
- Adjustable LOP Stock for Cast/Drop at Comb Using Incremental Stock Shims

500 HUNTING

Superb Versatility that Lasts

Mossberg®'s 500 Hunting range is consistently high in demand across the shooting world including here in the UK, where Viking is proud to supply it. It's one of the most prolific shotgun ranges in the market thanks to its incredibly versatile applications and proven reliability. No-frills pump action keeps things simple for those who prefer to do things by hand.

Viking's own Andy Norris says these rifles "just seem to fit everyone" from gamekeepers and pest controllers to shooting enthusiasts and beyond, which is partly due to their top mounted safety for ambidextrous operation. The 500 Hunting also has dual

extractors, positive steel to steel lockup, twin action bars, an anti-jam elevator, and (in select models) Mossberg®'s revolutionary Lightning Pump Action (LPA) adjustable trigger.

- 6-shot Magazine
- Top mounted safety is conveniently placed, highly visible, and ergonomic
- Anodised Aluminium Receiver
- Twin Bead Sight

590 MARINER

12 Bore Pump Action that Won't Quit

The 590 Mariner is built to military-spec standards, an elite machine known for its endurance like the Marines who inspired its name. It's a 12 bore pump action shotgun that shoots all 2-¾-inch and 3-inch shells, with a 9 shot capacity. Its marinecote finish and full synthetic butt stock combination offers the highest possible degree of durability, and it's been tested by Mossberg® to prove it. The 590 Mariner has been frozen, baked, and dropped at various altitudes in all weather, surviving every test.

- Plain Barrel with Cylinder Bore and Front Bead Sight
- Durable Marinecote Finish
- Synthetic Stock and Full Synthetic Butt Stock
- Excellent Durability and Corrosion Resistance

590 PERSUADER

A Dependable, Economical All-Rounder

The 590 Persuader is a virtual reproduction of the Mossberg® Military 500 models, which are the only pump-action shotguns to ever make the cut and see real action with the US military. They passed every one of the military's strict Mil-Spec 3443 standards because of their reliable and durable design, sleek cleaning capabilities, and sterling reputation as some of Mossberg®'s best and brightest firearms.

We recommend them for sporting and vermin control needs - an economical option that won't let you down.

- Convenient Magazine Tube Clean-Out Cap
- Top Mounted Safety Enables Ambidextrous Operation
- Synthetic Butt Stock
- Features a Removable Vented Heat Shield

MAVERICK 88

'The Working Man's Shotgun'

This 12 GA pump-action shotgun is an affordable staple in Mossberg®'s armoury, trusted to do the job in a wide range of forest and countryside settings by shooters around the world. Why? It's got all the features they want and none they don't: twin action bars, dual extractors, an anti-jam elevator and positive steel-to-steel lockup make it a steal for anyone hoping to gain a firearm for life without breaking the bank.

- Durable Black Synthetic Stock and Forend
- Vent Ribbed Barrel
- Durable Polymer Trigger & Guard
- Cross Bolt Safety Located Behind Trigger

RIFLES

PATRIOT

A Proven Performer

Perfect for everyone who appreciates classically styled gunsmithing, the Mossberg® Patriot range is as nice to look at as it is to shoot. These bolt-action centrefires are packed with top of the line features offered in three calibres. Both amateurs and enthusiasts appreciate the 4-round box magazines, top-mount Picatinny rail/scope bases, and more:

- Fluted and Threaded Barrels
- LBA Adjustable Trigger is User-Adjustable from 2 to 7 pounds
- Barrels Come Standard with Threading and Cap
- Oversized Bolt Handles and Spiral Fluted Bolts

PATRIOT LONG RANGE TACTICAL

Attractive, Accurate, Affordable LR Rifles

Patriot LR Tactical rifles are as sleek as their siblings in the Patriot range with an added bonus of reliable long-range accuracy. Three popular long-range calibres are available in the Patriot Long Range collection, all utilising 5/8"-24 TPI Threading.

They're favoured by pros thanks to their customisability: these rifles are adjustment-ready (in the stock, comb, and trigger) and accessory-optimised (for top-mounted Picatinny rails/scope mounts). Their MDT® stock is a new design that makes LOP (.75") and Cheekrest height (2") adjustable to the user's preference. They also feature a contrasting chequered grip, M-LOK attachment

slots, medium bull/threaded 22" or 24" barrels, and the following:

- User-Adjustable Stock and Comb / Cheekrest
- Aluminium V-Block Bedding for Barrel Stability
- Forend Featuring M-LOK® Mounting Ports
- AICS-Style Magazine
- Top-Mounted 20 MOA Picatinny Rail/Scope Base and Oversized Easy-Grip Bolt Handle
- Patented LBA Adjustable Trigger (2-7 lbs)

MVP-LC - LIGHT CHASSIS

Lightweight and Adjustable Bolt-Action Centrefire

The patented MVP bolt design makes for the kind of quality you can only get from a Mossberg® bolt-action rifle. This centrefire is lightweight, accurate, and easy to handle, featuring an aluminium target chassis with a Magpul grip and MilSpec adjustable stock.

Compatible with standard AR magazines (AR15, LR308/SR25), the MVP-LC's A-frame stock profile minimises your chances of snagging and maximises height adjustability potential. This firearm is offered with a 16.25" (5.56mm NATO), 18.5" (7.62mm

NATO), or 20" (6.5 Creedmoor) threaded barrel with protective thread cap included.

- Medium Bull Barrels are Free-Floated for Superior Accuracy
- MilSpec Adjustable Stock and Picatinny Rail
- Patented LBA Adjustable Trigger System and Oversized Bolt Handle
- Fluted Barrel with Protective Thread Cap

MVP PRECISION

Slim and Tactical Bolt-Action Centrefire

This sleek bolt-action centrefire is Mossberg®'s new long range tactical rifle, featuring a chassis design only made by Mossberg®. Its LUTH-AR MBA-3 stock is adjustable for LOP, cast, and comb height, and has takedown capability for shooters on the go. Its barrels are free-floated in a slim-profile forearm featuring M-LOK® modular mounting system that fits a range of accessories. It's got anodised and matte blue metal finishes - keeping this rifle looking sharp on any competition range.

Each MVP Precision rifle comes with a Magpul 10-Round PMAG,

24" or 20" threaded medium bull barrels ready for mounting suppressors or muzzlebrakes, and a scalloped tactical bolt handle not found elsewhere.

- LBA adjustable Trigger (3-7lbs)
- LUTH-AR MBA-3 Adjustable Stock
- 20 MOA Top Picatinny Rail & Scalloped Bolt Handle
- Free Floating Barrel in Slim-Profile Forearm

PISTOLS

MC2C

Handheld Excellence in a Semi-Automatic

Mossberg® recently brought new top-quality shotguns to the market that became fast favourites of law enforcement and military clients. The Mossberg® MC2C Semi-Automatic debuted in 2022 as a micro compact 9mm 13 and 15 round shotgun and a call-back to the brand's first product (the 'Brownie').

With up to 16+1 rounds at the ready, an ergonomic design, and

a wide range of options for finishes and sights, this shotgun features a crisp, clean break and smooth take-up for less hand movement, plus ergonomically-optimised finishes you can really feel. Grip panels are integrated with aggressive texturing in the palm swell, giving you added control when it counts.

MC2C
Model 89030

FEATURES

- Incredibly Slim Profile and Double-Stack Magazines
- Optic-Ready Slide Allows for Direct Mounting of Optics
- Flat-Profile Trigger with Integrated Blade Safety and Reduced Overtravel
